

Allisonville Eye Care Center

Eye Health and Nutrition For Medicare Patients – **IMPORTANT INFORMATION**

Allisonville Eye Care Center continues to offer advanced vision care, and we know that our patients want technology that safeguards their eye health. We now perform these important screening tests at your annual eye examination.

1) **OptoMap Screening Retinal Imaging- to see the inside of your eye!**

The Optomap provides a fast and non-invasive image to help assure that serious ocular diseases like

MACULAR DEGENERATION, GLAUCOMA, DIABETES, HYPERTENSION, AND EYE CANCER do not go undetected.

FOR A THOROUGH EXAMINATION, THERE IS SIMPLY NO SUBSTITUTE FOR AN ANNUAL OPTOMAP!

2) **Skin Carotenoid Scan (SCS)-takes under 2 minutes to assess Eye and Body Nutrition!**

Macular Pigment (MP) is essential for clear vision and eye health. Research shows that those with the highest vs. lowest levels of MP are **82% less likely to develop macular degeneration– the number one cause of vision loss at age 55 and above.** Antioxidants in our body also help us ward off other chronic diseases.

3) **(For Diabetics/Prediabetics Only) iWellnessExam with Optomap**

A quick, non-invasive scan that allows our doctors to see both the surface and beneath the surface of your retina. This unique technology can help our doctor detect vision-threatening and systemic diseases in their very early stages, when they are most treatable. We combine this test with Optomap and Skin Carotenoid Scan to best manage and monitor the health of your eyes.

I Elect the Recommended Ocular Health/ Nutrition

COPAY OF ONLY \$44 INCLUDES ALL RECOMMENDED TESTS – Optomap and Skin Cartenoid Scan

For Diabetics/Prediabetics, we highly recommend these tests. Please check here to have the iWellness examination, Skin Carotenoid Scan, and Optomap for **\$59.**

For all female patients, are you currently pregnant or nursing? Yes/No (circle)

I choose to decline these essential tests and accept the risks associated with a less thorough exam

Uncertain- I would like more information from the Doctor

For Medicare Patients: Medicare does not pay for all your health care costs. Medicare only pays for covered benefits. Some items and services are not Medicare benefits, and Medicare will not pay for them. When you receive an item or services that is not a Medicare benefit, you are responsible to pay for it, personally or through any other insurance that you may have.

The purpose of this notice is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you will have to pay for them yourself. Before you make decision, please ask questions for clarification.
